

Mentored Projects

General Info:

- Duration: July - December
 - Who: Our Mentors and You! 🤝
 - How: F2F check-ins, online meetings, regular updates (up to the discretion of each individual group + mentor)
 - Deliverables: A group presentation in December, featuring your findings/final project
-

Mentored Project Selection:

- Check out the mentored projects available here: (to add)
- Signing up for a mentored project:
 - Form a group of 3 people and sign up as a group under one project.
 - OR
 - Sign up for a project that interests you, and get grouped with others doing the same project!
- If you have any questions regarding the content/scope of a project, do reach out to the respective mentor to seek clarification

Alternatively, you may propose your own project that you'd like to explore. A mentor will be assigned to you should your project be approved. You will have to submit a proposal for your proposed project. The proposal template can be found at <https://eos-initiative.com/resources.html>

During the Mentored Projects:

- Our mentors will be providing you with the necessary resources/advice/assistance for you to complete your deliverables
 - There will be milestones set, with potential monthly meet-ups to build community and provide additional support.
 - Should you have any issues or doubts, do reach out to your mentor to resolve them as soon as possible!
-

Final Project Presentation:

- Can be done in any format (e.g. Powerpoint, Canva, a live presentation of your project etc.) so long as it best captures your efforts and work!
- There are prizes to be won, and while not the main aim of the mentored projects, can be something for your group to work towards.
 - **Most Creative:** Participants displayed innovation and creativity when developing their projects.

- **Most Technically Impressive:** Participants developed a project that surpassed the expectations of their mentors and what was taught during the workshop.
- **Most Useful:** Participants considered the usefulness of their projects in our current society and were able to deliver something applicable to our daily lives.
